

Information Technology Enterprise Solutions – 2 Services (ITES-2S)

Promoting the Benefits of Performance-based Contracting

Science Applications International Corporation (SAIC) has committed to provide Performance Based Service Acquisition (PBSA) familiarization classes as part of our ITES-2S contract requirements.

This reinforces our commitment to help the Army and the federal government community better understand PBSA and how it could benefit them in future service-related acquisitions.

The training class will cover:

- Introduction
- Government requirements/reference/guidance material
- Quality assurance surveillance plans
- Performance metrics
- Incentives discussion (understanding and selecting)
- Practical exercise
- Questions

Designed to:

- Provide more insight and understanding of the PBSA process.
- Help increase efficiency and effectiveness in developing PBSA requirements, evaluating proposals and monitoring performance during contract execution.

Class highlights:

- Attendance is free
- Structured as a 1 day (8 hour) course
- Taught at government sites to help reduce travel costs
- Qualifies for continuing education training requirements
- Class sizes range from 20-30 personnel
- Current requirements are not discussed – No OCI or disclosure concerns

Improve your organization's performance in managing PBSA contracts.

Performance Based Service Acquisition (PBSA) Classes

- No cost
- Flexible scheduling
- Over 1000 personnel already trained

Contract Number:
W91QUZ-06-D-0016

Contract vehicle was established by ITEC4 & PM ASCP for the benefit of the entire federal government.
